

Certified Education Assistant (CEA)

School District Dual Credit Program

This 447-hour Certified Education Assistant Program prepares learners to work as Education Assistants in schools as part of an educational team. Education Assistants work under the instructional supervision of classroom teachers and School District administrators while supporting the learning and independence of children who benefit from additional assistance in meeting their educational goals.

Learners are introduced to the organizational structure of schools and the role of Education Assistants in the classroom. Specific topics include general educational principles with particular attention to individualized instruction, cooperative learning and the importance of creating a positive learning environment. Learners develop and practice the skills necessary to implement modifications and adaptations of curriculum.
